## DOGS

Dogs were the first of all the .....to be domesticated. All dogs have the same wild ....., the wolf.

People began to ..... dogs about 12,000 years ago ..... wolves probably came around

..... settlements to scavenge from them. A hand-reared pup was a useful hunting aid because it could .....

faster than people. It may have taken several thousand years to turn ..... into tame dogs. By 10,000

..... ago dogs were playing an important part in ..... lives. Now there are .....

than 100 species of dogs. Dogs are colour-..... and they are also .....-sighted. The dog .....

also includes foxes, coyotes and jackals. African hunting dogs and ..... Australian dingo are true wild dogs.

They ..... lived in the wild for at least 8,000 years.
